2. AREA OF RESPONSIBILITY

The AIS is responsible for the collection and dissemination of aeronautical information with regard the airspace and aerodromes available for civil air traffic within the territory of Hungary.

3. AERONAUTICAL PUBLICATIONS

The aeronautical information is provided in the form of the Aeronautical Information Product which are:

- Aeronautical Information Publication (AIP), including Amendments (AMDT) and Supplements (SUP);
- AICs;
- aeronautical charts;
- NOTAM;
- digital data sets.

3.1 AIP and related amendment service

AIP is the core document containing data and information of a lasting character, which are of operational

significance for the safe conduct of air traffic. The AIP is kept up to date by means of an amendment service.

3.1.1 Electronic AIP (eAIP)

The Hungarian eAIP is based on the EUROCONTROL eAIP Specification and the ICAO AIP Specimen.

Amendments to the eAIP are published on HungaroControl's AIS website:

URL: <https://ais-en.hungarocontrol.hu/>

3.1.2 Supplements to the AIP (AIP SUP)

AIP Supplements (AIP SUP) contain information of a temporary nature. Generally they deal with:

- Publications valid for 3 months or more,
- Publications containing charts or with an extensive text, even if valid for less than 3 months.

3.1.3 Aeronautical Information Circulars (AIC)

Aeronautical Information Circulars (AIC) provide important aviation-related information that does not require publication in AIP or as a NOTAM, as defined by ICAO Annex 15. AICs are issued when the information is deemed beneficial for aviation operations, particularly in relation to legal or technical matters, or when it contributes to the enhancement of flight safety.

3.2 NOTAM

NOTAM are distributed for Budapest FIR in four series identified by the letters A, B, M and S. NOF also distributes information for the KFOR sector in series K.

Series A - General rules and information on en-route navigation and communication facilities, airspace restrictions and reservations, information concerning aerodromes contained in AD 2 part of the Hungarian AIP.

Distribution: Nationally and internationally to all states which interchange NOTAM.

Series B - Information concerning the VFR aerodromes or VFR flight operations.

Distribution: On request.

Series K - Information issued for KFOR Sector. See [AIP SUP 001/2020 KFOR Sector](#)

Distribution: On request.

Series M - NOTAM concerning military aerodromes and military navairs.

Distribution: On request.

Series S - SNOWTAM comprises information concerning the presence or removal of hazardous conditions due snow, ice, slush, frost, standing water or water associated with snow, slush, ice or frost on the aerodrome pavement.

NOTAM and SNOWTAM are distributed via AFS.

3.3 Pre-flight Information Bulletin

Pre-flight Information Bulletins (PIB), that contain a recapitulation of current NOTAM and other information of an urgent nature for the operator/flight crews, are available at the Flight Data and Reporting Unit.

Contacts:

Email: aro@hungarocontrol.hu

Phone: (+361) 293-4310 and (+361) 293-4312.

Hours of Service: H24.

Pre-flight Information Bulletins (PIB) are provided for all IFR and VFR flights departing from Budapest FIR. A PIB normally includes NOTAM messages and other information of an urgent nature not older than 15 days. On individual request, the time period can be extended.

3.4 Checklist and lists of valid NOTAM

A Checklist of valid NOTAM is issued monthly via AFS. The Summary of NOTAM is distributed by e-mail to all recipients of the eAIP. It contains a plain-language presentation of the valid NOTAM and information about the number of the latest issued AIP AMDT, AIP AIRAC AMDT, AIP SUP and AIC.

3.5 Sale of publications

Subscription to the AIS publication mailing list to receive notifications by e-mail with links to download all the published material (AIP AMDT, SUP, AIC and monthly NOTAM list) is free of charge. Subscription:

4. AIRAC SYSTEM

In order to control and regulate the flow of changes resulting in amendments to charts, route-manuals etc., such changes, whenever possible, will be issued on predetermined dates according to the AIRAC system. Whenever possible, this type of information will be published as an AIRAC AMDT.

When an AIP Amendment will not be published at the established interval or publication date, a NIL notification shall be originated and distributed by TRIGGER NOTAM.

AIRAC information will be issued so that the information should be received by the customer not later than 28 days before the effective date and for major changes not later than 56 days.

On publication date (42 days before the AIRAC effective date), a trigger NOTAM will be issued giving a brief description of the contents, effective date and reference number of the AIRAC AIP AMDT or AIRAC AIP SUP that will become effective on that date.

The table below indicates AIRAC effective dates for the coming years:
